

Occitanie

In Toulouse, Aeroscopia offers families an immersion into the history of aviation. Between the Concorde, the Caravelle and the A400M, young and old alike will discover mythical aircraft, before visiting the Airbus workshops and the Cité de l'Espace, with its replica of the Ariane rocket.

Children become small winemakers during a private workshop. From 4 to 12 years old, they explore the secrets of the vineyard, enjoy hands-on creative activities, and sample local grape juice. A fun and sensory adventure with the family.

Château Capitoul

With its family villas with private swimming pools, the Château Capitoul offers a break of freedom in the heart of the vineyards. The spirit of the South, the comfort of an exceptional estate and the intimacy of a stay in tribe.
